INTRODUCTION

Welcome to NetworX 1.0!

NetworX 1.0 represents over 1.5 years of community development as an Open Source project. The release of NetworX 1.0 comes with a promise of API stability and forwards-compatibility.

The documentation has been improved, and cleaned up. We can't possibly document everything that's new in 1.0, but the documentation will be your definitive guide.

Please provide feedback on this release as we continue working to incorporate your suggestions into the development process. Our Development Team is closely monitoring your feedback and is making every effort to fold it into upcoming releases.

You can provide feedback through the NetworX Forum Portal, accessible through <http://www.socialabc.com/index.php?page=forum>.
